### Comments:

- more extra challenges, less easy stuff; shapes; sometimes grammar activities need more explanation; more counting; more adding; more craft; topic related homework; word problems in numeracy, more spelling and writing; I would object if there wasn't time off for the holidays; my child enjoys the activities; more fun homework wanted; boring and taking too long; love doing home activities - it's amazing.
- activities give an insight into what my child is doing; provide important structure and build independence; are very valuable; are helpful and enjoyable; are very important; are OK; are valuable of course, thank you.
